

## Introducing NTWC's new At-Large Representative Joshua Jojola

The National Tribal Water Council recently welcomed Joshua Jojola as the new At-Large Representative. Joshua serves as the Water Quality Program Manager for the Department of Natural Resources at the Pueblo of Santa Ana in New Mexico.

Joshua oversees the tribe's water quality program for the EPA 106 and 319 grants. With over seven years of experience in tribal water quality, Joshua brings expertise in monitoring, regulatory compliance, and sustainable resource management. He collaborates with tribal, state, and federal partners to protect and enhance water resources, integrating traditional knowledge with modern practices to ensure safe, resilient, and culturally informed water programs for the community.

## GRANT OPPORTUNITY

### EPA Seeks Applicants for Environmental Education Grants

**Deadline: March 3, 2026**

The EPA is seeking applicants for its Environmental Education Grant Program, announcing up to \$3.2 million in funding to support local, community-based projects that promote environmental awareness and stewardship. The EPA expects to award up to 16 grants nationwide, with individual awards ranging from \$200,000 to \$250,000. The grants are designed to help communities develop hands-on educational projects that encourage Americans to protect their water, health, and natural surroundings.

The program focuses on giving people the knowledge and skills needed to make informed environmental decisions, from safeguarding local waterways to promoting responsible practices at home. Funded projects emphasize real-world learning, community engagement, and practical solutions tailored to local environmental challenges.

The EPA's Environmental Education and Stewardship Division held a webinar on February 5 to provide an overview of the funding opportunity, offer guidance on writing competitive applications, and answer frequently asked questions. The webinar slides are posted and the recording is coming soon. For additional information, please visit the EPA's environmental education grants webpage: <https://www.epa.gov/education/grants>.

The Notice of Funding Opportunity is available on [Grants.gov](#) and the EPA's Environmental Education Grant webpage. Applications are due March 3.

# PUBLIC COMMENT OPPORTUNITY

## EPA's Proposed Rule to Revise the Existing Clean Water Act Section 401 Water Quality Certification Regulations

**Deadline: February 17, 2026**

On January 13, 2026, the EPA announced a proposed rule to update and clarify several substantive and procedural requirements for water quality certification under Clean Water Act (CWA or the Act) section 401. CWA section 401 is a direct grant of authority to States (and Tribes that have been approved for "treatment as a State" status) to review for compliance with appropriate federal, State, and Tribal water quality requirements any discharge into waters of the United States that may result from a proposed activity that requires a federal license or permit. This proposed rule is intended to clarify several aspects of the certification process consistent with the statutory framework.

EPA is accepting public comments on the proposed rule until February 17, 2026. Comments on the notice should be identified by [Docket ID No. EPA-HQ-OW-2025-2929](#) and may be submitted online. For more information, please visit: <https://www.epa.gov/cwa-401/cwa-section-401-regulatory-requirements>
